Curvy Moon T11 Ultrasonic Tooth Cleaner Pro

>> High-frequency technology to support daily dental care
>> Intelligent Smart Chip detects contact with the tooth surface
>> Multiple intensity levels for a personalised experience
>> Integrated UV sterilisation function for the cleaning tips
>> Up to 180 days of battery life, USB-C charging and a high-quality aluminium housing

The Curvy Moon T11 Ultrasonic Dental Cleaner Pro represents modern and precise dental care at the highest level. Its powerful high frequency technology supports daily tooth cleaning and may help to gently loosen plaque, deposits and surface stains caused by coffee, tea, wine or smoking. Even hard to reach areas can be cleaned effectively, supporting a clean and well maintained feeling in the mouth. An intelligent Smart Chip detects contact with the tooth surface. The cleaning function is activated only when in contact with the teeth and automatically stops when it touches the gums. This supports controlled and precise use. With multiple intensity levels ranging from gentle to intensive, the T11 can be individually adjusted to personal preferences. The premium aluminium housing provides stability, durability and a comfortable feel. Its slim and ergonomic design fits comfortably in the hand and allows precise guidance during use. For added hygiene, the charging station features an integrated UV sterilisation function for the cleaning tips. This helps maintain the hygiene of the attachments between uses. The powerful battery provides up to 180 days of battery life and is conveniently recharged via USB C. This ensures the T11 is always ready for use, whether at home or on the go. The comprehensive accessory set completes the package and enables flexible, individual use. The Curvy Moon T11 Ultrasonic Dental Cleaner Pro is the ideal addition to your daily oral care routine for anyone who values modern technology, premium quality and comfortable operation. Note: This product is intended to support daily dental care and does not replace a dental examination or treatment.
